(Code, 2002)

8.04.020 Responsibility for Cleanup. The Town is not obligated to clean, pick up or remove waste or other debris resulting from construction or repairs to buildings or other improvement of property within the Town, or dead or fallen trees, or limbs from trees on private property or parking adjacent thereto, nor trash resulting from a general cleanup of vacant or improved property. All such shall be removed by the owner, occupant, tenant or lessee at his own expense, except as may be otherwise provided in this Chapter. (Code, 2002)

8.04.030 Transport or Garbage – Requirements. It is unlawful for any person to remove or carry, or cause to be removed or carried, on or along the streets and alleys of the Town any garbage or other matter offensive to sight or smell except in watertight cans or in carts, trucks, or wagons having iron beds or boxes with proper covers, so that the garbage or other matter is not offensive. The garbage shall be so leaded that none of it falls, drips or spills on the ground. (Code, 2002)

8.04.040 Collection -- Frequency. Refuse and garbage will be collected at least once each week, and where necessary to protect the public health, the Board of Trustees may require more frequent collections. Nothing contained herein shall prevent an individual from hauling his own waste material provided that it is properly disposed of in conformity with State law and health department rules and regulations.

B. The charge for Town collection of refuse will be made at the same time as the charge for the water utility service offered and furnished by the Town and such refuse charge shall be due and payable at the same time and place as the charge for the water utility service.

C. The charge for Town refuse collection and the charge for water utility service are hereby declared to be parts of one debt to the Town insofar as the same or any one customer or consumer and the refusal or failure to pay any part of such debt for any monthly period of service in accordance with the rules and regulations established by the Town Board shall be sufficient cause for discontinuing water utility service and/or refuse collection.

D. The amount of the charge for refuse collection service provided by the Town shall be a lien upon the property service until the same is paid. In case of failure to pay the established charges for collection service by the owner or person having the occupancy, control, or management of any premises within thirty (30) days after the time prescribed for payment of such charges by the Town, the Town Clerk may certify such charges as assessed to the County Treasurer to be placed on such tax list for the current year to be collected in the same manner as other taxes are collected with a ten percent (10%) penalty to defray the cost of collection as provided by State law.

A permit for dumping trees and limbs must first be obtained from the Town Clerk. The Board of Trustees may establish a permit fee by Resolution. (Code, 2002)

13.08.160 Property Charged with Rent. All water rents shall be charged against the property served and against the owner thereof and, if for any cause any sums owing therefor become delinquent, the water shall be cut off and in no case shall it be turned on to the same property until such delinquencies shall have been paid in full. 16.28.010 Purpose of Planned Unit Development. Districts -- Building Codes Not Affected.

This Chapter is intended to allow for the development of land in a way which might not be permitted under traditional zoning regulations. It is anticipated that this Chapter will permit developments which will preserve the natural and scenic features of large open areas by arranging buildings and homes in innovative ways, thereby promoting the public interest while at the same time providing an efficient use of land. It is not the purpose of this Chapter to modify or in any way vary or reduce the requirements of any building or fire code. (Code, 2002)

16.28.020 State Provisions Superseded -- Exception. This Chapter is intended to supersede the provisions of and prevent the application in this Town of the Planned Unit Development Act of 1972, (Article 67 of Title 24, C.R.S., 1973) except as provided in Section 16.28.270. (Code, 2002)

16.28.030 Size -- Development According to Plan -- Ownership -- Uses -- Trade Off of Setbacks and Yards for Open Spaces. A Planned Unit Development (PUD) is an area of land at least two acres in size which is developed according to a plan devised by the landowner and approved in advance by the Town. The area may not be divided geographically into separately owned parcels, as the landowner determines, but, in any event, at least part of the area must be co-owned in undivided interests and be available for park or recreational use by persons living or working in the PUD. The Town Board may authorize residential uses and commercial uses in the same PUD and conceivably light industrial uses may be allowed in PUD's. Typically, the Town Board will not require setbacks or yards for individual buildings, and in return the landowner will set aside substantial areas of open space. (Code, 2002)

16.28.040 Site Requirement -- Waiver Permitted When. Upon the specific request of the landowner or upon the recommendation of the Planning Commission or upon the motion of the Town Board, the two-acre minimum requirement may be waived if, after considering the land use requested, the Town Board finds that such waiver would be beneficial to the Town and foster the objectives of this regulation and the Nunn Comprehensive Plan. (Code, 2002)

16.28.050 Zoning a PUD -- Required for Planned Unit Development and Limited Thereto. Land areas are eligible for PUD development only if the area has been zoned as a Planned Unit Development District. Conversely, the only development permitted in a Planned Unit Development District is that done pursuant to an approved PUD plan. (Code, 2002)

16.28.060 Zoning as PUD -- Requirements. Land area shall be zoned as Planned Unit Development District only upon the application of each landowner of the area and only if the Town Board has concluded on the basis of a conceptual plan submitted by the landowner. (Code, 2002)

16.28.070 Conceptual Plan -- Contents. The conceptual plan shall indicate the types of land uses, the general location and number of buildings and other structures, the general location and dimensions of open areas, the general location of internal streets and walkways, and the style of architecture proposed. (Code, 2002)

16.28.080 Simultaneous PUD Plan and Zoning Approval Request Permitted. A landowner may apply to have an area zoned as a Planned Unit Development District and at the same time apply for approval of a PUD plan. (Code, 2002)

16.28.090 Zoning and PUD Plan Approval Required Before Development. A land area shall not be developed as a PUD until the area has been zoned as a Planned Unit Development District and until a PUD plan has been approved. (Code, 2002)

16.28.100 PUD Plan -- Contents. The PUD plan is a comprehensive plan submitted to the Town in advance of development, projecting the development and use of an area of land, showing in detail the types and designs of buildings, the uses to which buildings will be put, the locations of the buildings and the location and designs of streets, lanes, parking areas, parks and other open areas. The plan consists of the application for PUD approval, all information, maps, and other data submitted with the application, and all testimony and exhibits presented by the applicant at hearings held in conjunction with PUD approval. (Code, 2002)

16.28.110 Application for PUD Plan Approval -- Signatures Required -- Contents. The process of seeking approval for a PUD plan shall be initiated by the submission of a written application to the Town Clerk. The application shall be signed by each landowner of the land included in the proposed PUD. The application form shall require all of the following information, data, and documents: (Code, 2002)

- A. The legal description of the area; (Code, 2002)
- B. A survey plat showing the outer boundaries of the area and showing elevation contours at two-foot intervals; (Code, 2002)
- C. A site plan showing the location of all buildings, signs, streets, lanes, parking areas, parks, open areas, recreational facilities and all other improvements; the site plan shall show the dimensions of all structures, streets, parking areas, and recreational facilities, and shall show the distances between structures and boundary lines; (Code, 2002)
- D. Preliminary drawings of all buildings, with elevations; (Code, 2002)
- E. A landscape plan showing the location of landscaped areas and containing a narrative statement describing how the area will be landscaped; (Code, 2002)
- F. A preliminary engineering plan for streets, sidewalks, lanes, utility lines, and drainage facilities; (Code, 2002)
- G. An indication of the location, height, and size of proposed signs, lighting and advertising devices; (Code, 2002)
- H. A narrative statement of how each building and structure will be used, the volume of business expected to be conducted at any commercial or industrial establishment, the number of dwelling units in each building, and all other information calculated to disclose, to the extent possible, the uses to which the area will be put and the impact of those uses on the area and on land adjoining the area; (Code, 2002)
- I. A statement of how the co-owned area will be managed, used and maintained, and including a projected budget for a reasonable period of time for the operation and maintenance of such areas; (Code, 2002)
- J. A preliminary development schedule. (Code, 2002)

16.28.120 Scheduling Planning Commission Hearing. The Town Clerk shall schedule a date for a public hearing on the application before the Planning Commission at a regular or special meeting. The hearing shall be scheduled as soon as practicable, considering the business demands of the Planning Commission, but, in any case, within forty-five (45) days of the filing of the application. (Code. 2002)

16.28.130 Review for Building and Fire Code Compliance -- Effect of Non-Compliance -- Approval Not to Affect Building Code Enforcement. The application and supporting documentation shall be reviewed to determine whether the proposed construction would appear to violate applicable building or fire codes. If it is determined that the proposed construction would violate any applicable building or fire code, no further processing of the application shall occur until the application has been changed by the applicant to eliminate the prospective violations. The fact that the evaluation report detects no prospective building or fire code violations shall not affect the right and responsibility of the

Town to strictly enforce the requirements of applicable building or fire codes in later reviewing final construction plans and specification in connection with building permit applications. (Code, 2002)

16.28.140 Planning Commission Hearing -- Report -- Access to Reports by Parties in Interest. The Planning Commission shall review the application and supporting documentation at a public hearing. The Planning Commission shall, if it recommends approval, recommend any conditions and safeguards which it feels should be imposed on the landowner. (Code, 2002)

16.28.150 Town Board Hearing -- Scheduling -- Notice. The Town Board shall review the application and supporting documentation at a regular or special hearing occurring within ninety (90) days of the filing of the application. The Town Clerk shall prepare a notice of the hearing, giving the date, time and place of the hearing and the area involved, and inviting attendance at the hearing. The notice shall be published one time in a newspaper of general circulation in the Town at least ten (10) days before the hearing, or posted in three (3) public locations. The Town Clerk shall cause at least two signs containing the same information as contained in the notice to be posted at the site. The posted signs shall be located so as to be reasonably calculated to give notice to persons occupying land in the neighborhood and shall be in place during ten (10) or more days immediately before the hearing. (Code, 2002)

16.28.160 Town Board Hearing -- Purpose -- Parties in Interest Defined -- Conduct -- Consideration of Reports. The hearing before the Town Board shall be conducted to give parties in interest an opportunity to present arguments and evidence favoring or opposing the application. The term "parties in interest" includes any of the landowners applying for PUD approval any person or persons selected by them to present their position. any individuals owning or occupying land in the neighborhood surrounding the proposed POD if such land, in the judgment of the Board, probably would be affected by the POD, and any persons selected by such owners or occupiers of neighboring land to present their position. The Board may limit the number of persons presenting arguments and evidence in order to avoid unnecessary duplication. The Board may adopt procedural rules for the conduction of such hearings. (Code, 2002)

16.28.170 Town Board Decision - - Deadline --Form -- Reasons to be Included. Within thirty (30) days following the last public hearing or within thirty (30) days following the public hearing or within thirty (30) days following the last public hearing if more than one is held, the Town Board shall decide for or against approval of the PUD plan. The decision shall state, with as much particularity as is reasonably practicable, the reasons for the approval or disapproval of the PUD plan. (Code, 2002)

16.28.180 Evaluation Criteria of Public Interest and Safeguards to Public Landowners. The basic criterion for the Town Board to consider in judging a PUD plan is whether it would or would not serve the public interest and whether the self-regulating aspects of the proposed PUD would or would not provide safeguards to the public and to the persons owning and occupying the land area of the PUD, which would be approximately equivalent to the area of safeguards provided by the Town of Nunn Subdivision Regulations. In making that determination, the Town Board shall consider the proposed PUD in terms of compatibility of land uses within the PUD and between those in the neighborhood and those proposed for the PUD, traffic, appearance and recreational potentials, the likelihood that the PUD will achieve the objectives described in this section, and any other matters which the Town Board determines will be relevant in making its decision. (Code, 2002)

16.28.190 Approval by Town Board -- Grounds -- Non-Conformance of Plan to Conceptual Plan is Grounds for Denial. The Town Board shall approve the PUD plan if it concludes that the PUD will promote the public interest, will achieve the basic objectives of these regulations, and will not injure the legitimate concerns of the citizens of the Town in general and of the persons living and working in the surrounding neighborhood in particular. The Town may, however, deny approval to a

PUD plan solely on the basis that it fails to sufficiently conform to the conceptual plan on the basis of which the Planned Unit Development District Zoning was granted. (Code, 2002)

16.28.200 Approval by Town Board -- Simultaneous Zoning and Plan Requests. In cases where the landowner applies to have an area zoned as a Planned Unit Development District and at the same time applies for approval of a PUD plan, the Town Board may approve the zoning application but deny approval of the specific PUD plan proposed. (Code. 2002)

16.28.210 Approval by Town Board -- Approval Document. If the Town approves the PUD plan, the Town Board shall direct the preparation by the Town Attorney of an approval document. The purpose of the document shall be to identify and describe, in as much detail as possible, all aspects of the PUD plan as approved. An additional purpose of the approval document will be to set forth any conditions and undertakings which the landowner must satisfy in the course of construction and development. After such document has been executed, the Town Clerk shall cause the approval document, or an abbreviated form of it, to be recorded in the real estate records of Weld County, Colorado. (Code, 2002)

16.28.220 Disapproval by Town Board -- Zoning Initiation at Request of Landowner. If a PUD plan is disapproved by the Town Board, the Town Board shall thereupon, if requested by the landowner, initiate a zoning amendment procedure to place the land in an appropriate zoning district other than the Planned Unit Development District. (Code, 2002)

16.28.230 Conformance to Approval Document Required -- Review of Plans and Specifications Therefor as Building Permit Requirement. All construction and other activity on land in a PUD shall be in strict conformity to the approval document. Only if that determination is made favorably to the applicant may building permits be issued. The mistaken issuance of any building permit shall not constitute the waiver of the requirements and limitations of the approval document. (Code, 2002)

16.28.240 Non-Compliance With Approval Document Unlawful. Any construction or other activity which is not in strict compliance to the approval document shall constitute an unlawful act. (Code, 2002)

16.28.250 Uses and Densities in Completed PUD to Conform to Approval Document -- Non-Conformance Unlawful. After completion of all construction and other development of a PUD, the buildings and land shall be used for activities authorized by the approval document, and at density levels specified therein, and any contrary use or activity shall be an unlawful act. (Code, 2002)

16.28.260 Buyers After Approval Document is Recorded Are Subject To It. By acquiring any ownership or possessory interest in land included in a PUD after an approval document or an abbreviated form thereof has been recorded in the real estate records of Weld County, Colorado, an individual becomes obligated to comply with the requirements and limitations of the approval document as though such person has been a landowner at the time the approval document was issued. (Code, 2002)

16.28.270 Open Space and Common Areas -- State Maintenance and Upkeep Provisions Apply. It is declared that this title shall not supersede the Planned Unit Development Act of 1972, appearing as Article 67 of the Title 24, C.R.S., 1973, with respect to the provisions of that act pertaining to the continued maintenance and upkeep of open space and other commonly owned areas and the consequences of failing to maintain such areas. In all other respects, these regulations supersede said act. (Code, 2002)

The Town shall conduct a hearing at the request of the landowner, which hearing follows the successful approval of the development at all other required stages of the development review process. Each map, plat, or other document constituting a site specific development plan shall contain the following language: "Approval of this plan may create a vested property right pursuant to Article 68 of Title 24, C.R.S., as amended." Failure to contain this statement shall invalidate the creation of the vested property right. In addition, a notice describing generally the type and intensity of use approved, the specific parcel or parcels of property affected and stating that a vested property right has been created shall be published once, not more than fourteen (14) days after approval of the site specific development plan, in a newspaper of general circulation. (Code, 2001)

16.46.060 Approval -- Effective Date -- Amendments. A Site Specific Development Plan shall be deemed approved when the Town Board approves the related Ordinance or Resolution subject to the right of appeal and judicial review. In the event amendments to a Site Specific Development are proposed and approved, the effective date of such amendments, for purposes of duration of a vested property right, shall be the date of approval of the original Site Specific Development Plan, unless the Town Board specifically finds to the contrary and incorporates such finding in its approval of the amendment. (Code, 2001)

16.46.070 Payment of Costs. In addition to any and all other fees and charges imposed by this Code, the applicant for approval of a Site Specific Development Plan shall pay all costs occasioned to the Town as a result of the Site Specific Development Plan review, including publication of notices, public hearing and review costs, which costs may be established by the Town Board by Resolution. (Code, 2001)

16.46.080 Other Provisions Unaffected. The establishment of a vested property right shall not preclude the application of ordinances or regulations which are general in nature and are applicable to all property subject to land use regulation by the Town including, but not limited to, building, fire, plumbing, electrical, and mechanical codes. (Code, 2001)

16.46.090 Limitations. Nothing in this Section is intended to create any vested property right, but only to implement the provisions of Article 68 of Title 24, C.R.S., as amended. In the event of the repeal of said Article or a judicial determination that said Article is invalid or unconstitutional, this Chapter shall be deemed to be repealed, and the provisions hereof no longer effective. 17.64.010 Findings of Fact.

A. Whereas, the flood hazard areas of the Town of Nunn, Colorado, are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of business and Town services, extraordinary public expenditures for flood protection and relief, and impairment of the tax base, all of which adversely affect the public health, safety, and general welfare. (Ord. 142, 1979)

B. These flood losses are caused by the cumulative effect of obstructions in areas of special flood hazards which increase flood heights and velocities and, when inadequately anchored, damage uses in other areas. Uses that are inadequately floodproofed, elevated or otherwise protected from flood damage also contribute to the flood loss. (Ord. 142, 1979)

17.64.020 Statement of Purpose. It is the purpose of this Ordinance to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed: (Ord. 142, 1979)

B. To minimize expenditure of public money for costly flood control projects; (Ord. 142, 1979)

- D. To minimize prolonged business interruptions; (Ord. 142, 1979)
- E. To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone, and sewer lines, streets and bridges located in areas of special flood hazard; (Ord. 142, 1979)
- F. To help maintain a stable tax base by providing for the second use and development of areas of special flood hazard so as to minimize future flood blight areas; (Ord. 142, 1979)
- G. To ensure that potential buyers are notified that property is in an area of special flood hazard; and (Ord.142, 1979)
- H. To ensure that those who occupy the areas of special flood hazard assume responsibility for their actions. (Ord. 142, 1979)

17.64.030 Methods of Reducing Flood Losses. In order to accomplish its purposes, this Ordinance includes methods and provisions for: (Ord. 142, 1979)

- A. Restricting or prohibiting uses which are dangerous to health, safety, and property due to water or erosion hazards or which result in damaging increases in erosion or in flood heights or velocities; (Ord. 142, 1979)
- B. Requiring that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction; (Ord. 142. 1979)
- C. Controlling the alteration of natural flood plains, stream channels, and natural protective barriers which help accommodate or channel flood waters; (Ord. 142, 1979)
- D. Controlling filling, grading, dredging, and other development which may increase flood damage; and (Ord. 142, 1979)
- E. Preventing or regulating the construction of flood barriers which will unnaturally divert flood waters or which may increase flood hazards in other areas. (Ord. 142, 1979)

17.64.040 Definitions. Unless specifically defined below, words or phrases used in this Ordinance shall be interpreted so as to give them the meaning they have in common usage and to give this Ordinance its most reasonable application.

17.64.180 Conditions for Variance.

A. Generally, variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acre or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing item E. in Section 17.64.180 have been fully considered. As the lot size increases beyond the one-half acre, the technical justification required for issuing the variance increases. (Ord. 142, 1979)

B. Variances may be issued for the reconstruction, rehabilitation, or restoration of structures listed in the National Register of Historic Places or the State Inventory of Historic Places, without regard to the procedures set forth in the remainder of this section. (Ord. 142, 1979)

C. Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result. (Ord. 142, 1979)

D. Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief. (Ord. 142, 1979)

E. Variances shall only be issued upon: (Ord. 142, 1979)

1. A showing of good and sufficient cause; (Ord. 142, 1979)

2. A determination that failure to grant the variance would result in exceptional hardship to the applicant; and (Ord. 142, 1979)
3. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public as identified in Section 17.16.180, or conflict with existing local laws or ordinances. (Ord. 142, 1979)

F. Any applicant to whom a variance is granted shall be given written notice that the structure will be permitted to be built with a lowest floor elevation below the base flood elevation and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation. (Ord. 142, 1979)

17.64.190 Provisions for Flood Hazard Reduction. General Standards: In all areas of special flood hazards, the following standards are required: (Ord. 142, 1979)

2. All mobile homes shall be anchored to resist flotation, collapse, or lateral movement by providing over-the-top and frame ties to ground anchors. Special requirements shall be that: (Ord. 142, 1979)
 - (a) Over-the-top ties be provided at each of the four corners of the mobile home, with two (2) additional ties per side at intermediate locations, with mobile homes less than fifty (50) feet long requiring one (1) additional tie per side; (Ord. 142, 1979)
 - (b) Frame ties be provided at each corner of the home with five (5) additional ties per side at intermediate points, with mobile home less than fifty (50) long requiring four additional ties per side: (Ord. 142, 1979)

1. Be floodproofed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water; (Ord. 142, 1979)
2. Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyancy; and (Ord. 142, 1979)
3. Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certifications shall be provided to the official as set forth in Section 17.64.140.80 (Ord. 142, 1979)

I. Floodways. Located within areas of special flood hazard established in Section 3.2 are areas designated as flood ways. Since the flood way is an extremely hazardous area due to the velocity of flood waters which carry debris, potential projectiles, and erosion potential. the following provisions apply: (Code, 2002)

1. Prohibit encroachments, including fill, new construction, substantial improvements, and other development unless a technical evaluation demonstrates that encroachments shall not result in any increase in flood levels during the occurrence of the base flood discharge. (Code, 2002)
2. If Section 5.3(1) is satisfied, all new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of Section 5.0 Provisions For Flood Hazard Reduction. (Code, 2002)
3. Prohibit the placement of any mobile homes, except in an existing mobile home park, or existing mobile home subdivision. (Code, 2002)
