

KNOW THE FACTS!

YOUR TAX DOLLARS AT WORK:

Recall Election: \$1,000-\$2,000

General Election April 2010: \$1,000-\$2,000

IS THIS FISCALLY RESPONSIBLE?

These “concerned citizens” are the same people complaining about paying the bills. Why would Jenny Johnson, Joyce Taylor and Karen Burd vote not to pay the Bills? Apparently these trustees and “concerned citizens” don’t want anyone to have their trash picked up, they want our street lights turned off and even worse; to cut off our life-essential: water. When they voted not to pay the towns bills, it was for ALL the bills not just over-time of a town employee (who is required to be at ‘extended’ meetings which probably led to the overtime). What kind of thinking is that? Fiscally responsible? We don’t think so.

Please make sure you know the REAL reason behind the recall. These “concerned citizens” aren’t concerned with the other 500+ residents of our town. They want to gain control of the town so they can fire all of our valued employees, now that is a lawsuit waiting to happen. This is called unrighteous dominion or simply put: corruption.

Have any of you talked with Jeff Pigue, Christy Alexander or Jack Smith one-on-one? TRY IT! You will be pleasantly surprised.

These three trustees are doing their best to do what is in the best interest “FOR ALL CITIZENS” and not just a few.

If you signed one of the recall petitions and would like to have your name removed, call the town hall and tell them. We were told the town is broke, we found out differently by doing our homework.

You should do the same.

It’s past time WE (EVERYONE) take responsibility for the decisions we make!
