

IT'S YOUR VOTE.....MAKE IT COUNT
HELP RESTORE PEACE IN OUR COMMUNITY!
KNOW WHO YOU ARE VOTING FOR.

Look and listen to who says "we will" or "I will". The Board is a team and we need a strong team to get us through the coming months. Our new Board should be highly motivated, neutral, fair and open minded. We need people that will work for the betterment of this town and *all* of the citizens. 103 years ago Nunn became a town and with that comes government. For those people that say they do not want government we ask "Why?". Government gives us freedom and structure.

The silent majority has spent months watching and questioning the actions of Trustees refusing to pay bills, continuing to be accusatory and hostile towards fellow Board Members and town employees, and holding unauthorized meetings with third party contractors for the town. To this date we have not seen any movement forward because the Trustees and Mayor that are willing to do work are continually bullied by a small group of citizens that are anti-change. We can not continue to live in the past and must realize the time for change is now if we ever want our community to prosper and be self supporting.

Transparency has been questioned by Trustees and citizens alike yet these very Trustees and citizens display actions against transparency. What can we expect from these Trustees if retained in office as well as "their" people that they want to fill the positions of the first group of recalls? Three Trustees in particular have failed to meet the requirements of the Oath of office they have taken. As you vote on December 15, 2009 please remember to read the words these 3 have written. Should they retain their seat in office? It is very apparent by the sample ballot we noticed at the post office that they will not be willing to move this town forward as they continue the finger pointing. You too will notice it if you *read* the ballot before voting.

Don't let your rights become trampled. Don't let your voice be drowned out by others. We realize many of you can not attend meetings and do not want to be a part of the fighting and we respect that. Here is your chance to be heard. Let people know you back them even though you can't make it to the meetings.

Take your time to recognize the people that are willing to help move this town forward. Realize that there are fresh faces and a few old faces that care about this town and have stepped up to the plate to run in this election and others to fight for their positions. Give them the credit that is due. Give them the chance to make a difference for our community and the few to continue their good works. A good team would be Gary Stuart, Christy Alexander, Bobbie Crosby, James McMechan, Jack Smith, Justin Cottrell and Regina Rosales-Pigue. They will speak for us.

Do not let outside influences affect how our town is run. We have to regain peace in our community through a team effort. There is no "I" in team!

~~~~~**We need people that have a vested interest in our community.**~~~~~
